V1, C1, V2, C2, B, C2

Verse 1

Em **C** **G** **D**
Moments, times, seasons of emptiness

Em **C** **G**
Feeling lost, alone, afraid

Em **C**
I've allowed this distance

G **D**
I've walked into the darkness

Em **C** **D**
Then I hear You call my name

Chorus 1

G
I seek You in this time

Em
To have You by my side

D
For nothing else will satisfy

C
Only You can bring the peace

Verse 2

Rain fall, floods, surround by storms

I'm helpless, tattered, torn

The wind blows

Shakes me to my knees

There I hear You call me

Chorus 2

G
I seek You in this time

Em
To have You by my side

D
For nothing else will satisfy

C
Only You can bring the peace

G
I need You, You alone

Em
Can save me, from this storm

D
So hold me in Your arms

C
Only You can bring the peace

Verse 3

I want to live my life for the big picture

By living it through the Holy Scripture

Not getting caught up in the mixture

Of this world's genres and clicks

Hip hop, cash, working for tips

But molding my mind to holy scripts

Saving people from the deadliest pits

Lifting up people's spirits

Watching the word flow from their lips

Consumed by knowledge that God hits

So hear my voice as I scream out those hits

From the one book that always sticks

In your mind to the ends of time

The holy bible, no nursery rhymes

So pick it up

Don't have one here, borrow mine

I'm sure you can find some souls to save

So stand and be brave, and make the way

Don't worry about being paid

Worry about being made into a warrior who saves

People through the Holy Spirit

So scream it out let the whole world hear it
